The CDDO Peer Review results were shared with the committee members. Some of the recommendations included the following:

The Shawnee County CDDO should have a sign outside to indicate they are a separate entity from TARC.

The CDDO Dispute Resolution Policy should be readily available and easy to access, the CDDO website has been updated adding links.

The CDDO website had a TARC link which has now been removed.

A new document has been developed regarding Options Counseling, this is to ensure everyone has been given information regarding all the provider choices available in Shawnee County.

The Functional Assessment Cover Sheet has been updated to reflect the date an Assessment was completed and the date it was entered into the KAMIS State Database.

Create a CDDO newsletter, this has been discussed among the CDDO team members and it was agreed to start working on this new project this year.
